

## **E. NOI FELLOWSHIP REPORT – SHORT-TERM BENEFITS**

NOI Fellowship Report concerning the evaluation of the short-term benefits must be sent no later than 30 days after the end of the fellowship to [grant@noisk.sk](mailto:grant@noisk.sk). Specifically, indicate the scope of work during the fellowship in the report and highlight the achievement of goals together with the possibility of knowledge transfer for the Oncology in Slovakia. Attach the relevant photo documentation to the fellowship report.

NOI Grant with its assigned number must be acknowledged in all publications or presentations related to the fellowship results, and a citation of the publication or information about the conferences needs to be sent to [grant@noisk.sk](mailto:grant@noisk.sk).

**Name and titles of NOI Fellow:**

Jana Tabišová, MD.

**Contact Address of the Home Institution:**

East Slovak Oncology Institute, Rastislavova 43, Košice, 041 91 Slovakia

**NOI Fellowship Title and Objectives:**

Solid tumors – getting clinical experiences

**NOI Fellowship Dates:** 08/01/2022-09/02/2022

**Contact Address of the Host Institution:**

Fondazione IRCCA Istituto Nazionale dei Tumori Milan, Italy

**Overview of NOI Fellowship experience:**

Thanks to the fellowship I could stay in Istituto dei Tumori in Milan whose specialisations are solid tumours-sarcomas I spent one month at the Department of mesenchymal tumours which is my object of interest and thanks fellowship I could see a lot of patients with this rare diagnosis. I took part in the morning visits, I took time at out patients and also every week we had multidisciplinary meetings with other specialists from this institute/surgeons, radiodiagnostics and radiation oncologists. During my stay, I could see and learn a lot about therapeutic strategy and treatment of sarcomas which I can applicate in our institute.

**Possible Knowledge Transfer for the Improvements in Oncology in Slovakia:**

Sarcomas represent a heterogeneous group of tumours but this diagnosis is not as frequent as other tumours. During my stay, I could see a lot of different types of sarcomas and know different types of treatments. I could see a lot of clinical trials, and multidisciplinary meetings. Professor Casali and his team were really helpful and with their professional approach, I spent an excellent time at this institute. I believe this time and my contacts will improve cooperation between our institute and this one of the best oncologic institutes in the world.

**Place and Date:** In Košice, September 30<sup>th</sup>, 2022
